Job purpose

Community engagement and accountability is at the core of Red Cross and Red Crescent programming and operations. It is an approach geared towards putting people and communities, vulnerable to and affected by crisis, at the centre of what we do. It encompasses a set of activities that embed and integrate participation, communication, feedback and learning throughout the programme cycle, in service delivery and in strategy development. The goal is to enable people and communities to lead and shape positive, sustainable change in their own lives, communities and society.

This includes participatory approaches, feedback systems, risk communication and evidence-based advocacy.

The focus of the CEA Officer will be to ensure the inclusion of community participation and feedback in all phases of the operation through mainstreaming different CEA techniques and activities across sectors. The CEA Officer will have a specific focus on setting up community feedback systems, ensuring community feedback and complaints are collected, analysed and acted upon by the sectors.
